

## AVAILABLE **HOT** CANDIDATES

### LIFE SCIENCES

**VP Marketing & Sales** (Candidate #9710) – BS ChemE with MBA. Global responsibility for sales and marketing to bioprocessing, analytical, and proteomics marketplaces. Developed, negotiated and closed supply agreements with the leading pharmaceutical, media, and scientific tool companies.

**Director of Sales – Bioprocess** (Candidate #9010) – BA PreMed with MBA. Senior sales management professional with demonstrated success in driving sales growth of cutting-edge technologies in the diagnostic, medical device and life science industries. Led consistent double-digit growth to the Bioprocess industry.

**Sales Manager – Membrane Filtration** (Candidate #11765) – BS Chemistry with MBA. Extensive experience selling filtration, separation and purification products and equipment for the top Membrane manufacturers, to chemical, medical, food and beverage, pharmaceutical and semiconductor markets.

**Sr. Sales Specialist – Single-Use Systems** (Candidate #16653) – BA Biology with strong record of success selling leading Single-Use systems into Bioprocess industry direct and through distribution channels.

**Automation/Controls Engineers-Bioprocessing** (Candidates # 7172, 19166, 3222)-Several candidates with 10+ years' experience in design , programming, validation, commissioning of biopharmaceutical operations including DCS, MES, PLC, SCADA; expertise with DeltaV, Allen-Bradley/Rockwell, Modicon.

### WATER/WASTEWATER TREATMENT

**VP Sales & Marketing –Water Treatment/Renewable Energy** (Candidate #5449) – BS ChemE with extensive experience leading Global Sales teams in Municipal and Industrial Water Treatment and Renewable Energy for Industry leaders and Early Stage companies.

**VP of Sales/President – Industrial W/WWT** (Candidate #6266) – BS ChemE with MBA. Strong leader, driving successful Sales Teams in Mining, Oil & Gas, Power, Produced Water and Desalination markets Globally for leading companies in the industry.

**VP and General Manager – Industrial/Municipal W/WWT** (Candidate #10873) – BS Civil Eng with MBA. Managed the growth strategy and all business unit activities for the municipal and industrial wastewater and potable water business for Global leader. Strong Technical and Managerial expertise.

**VP of Sales – Industrial/Municipal W/WWT**(Candidate #13179) – BS/MS ChemE with strong background managing high performing sales teams selling membrane filtration, UV, and Ozone technologies Nationwide.

**VP of Sales – Process Filtration** (Candidate #3994) – BSME with extensive experience driving sales of leading Filtration company into Fuels & Chemicals, Power Generation, and Municipal markets. Managing team of Sales Managers selling through Distribution Channels.

**Applications Engineer—Industrial, High Purity, Desalination** (Candidate #19273)-BS ChemE with 20+ years' experience for domestic and international customers; systems design and project management for installation, startup, training, and validation.

**Sales Engineer/Manager, Industrial/Municipal Water Treatment Systems** (Candidate #812) – BSChemE with extensive sales experience in industrial and municipal applications utilizing RO/NF membrane and ion exchange technologies. Strong technical abilities related to custom equipment. Experience managing a rep network.

**Sales Engineer – Industrial/Municipal W/WWT** (Candidate #9029) – BS ChemE with 20+ years of Applications Engineering, Product Management and Sales of equipment and services into wide range of industrial and municipal W/WWT markets.

## FILTRATION/SEPARATIONS

**Sr. VP Sales & Marketing – Industrial Filtration** (Candidate #6331) - Sales and Business Development Leader and Global SVP with a Fortune 1000 global filtration, separation, and purification company. Has broad market expertise and knowledge in Industrial Fluid Power and Process Markets (Mining, Metals, Automotive, Pulp & Paper, Industrial In-Plant), Power Generation, Fuels, Chemicals, and Industrial and Municipal Water.

**VP Sales & Marketing/President – Process Filtration** (Candidate #8955) - Entrepreneurial senior executive with a record of achievement in marketing and operational leadership, global market development, acquisition leadership, and new product / technology development, with an extensive background in marketing and sales.

**Director/VP Sales/Business Development – Filtration & Separations** (Candidate #3085) – Sr. Sales/Business Development leader with strong background in industrial liquid/liquid, liquid/solid filtration and centrifugation for Pharmaceutical, Chemical and Food processing industries. Entrepreneurial Hunter with strong team building, leadership and management skills.

**Sr. R&D/Applications Engineer – Membrane Filtration/Chromatography** (Candidate #5679) – PhD ChemE with strong Design/Development Leadership experience with applications in Filtration and Chromatography for Biopharmaceutical Manufacturing applications. Includes scale-up of TFF, MF and UF systems and design/development of Skidded systems.

**International Sales & Marketing Leader** (Candidate #7912) – BSBA with extensive International Sales & Marketing leadership experience. Strengths in Strategic Planning, P&L Management, new market penetration and contract management.

**Global Marketing Manager – Biopharmaceutical Products** (Candidate #16709) – BS ChemE with MBA. Seasoned executive with over 20 years of experience in developing and commercializing Life Science, BioProcessing, Industrial, Medical and Diagnostic products. Technically strong and adept at establishing and managing alliances with strategic customers, channel partners, OEM's and suppliers.

**Sales Engineer – Membrane Filtration** (Candidate #16643) – BSChemE with 3+ years experience designing and selling RO, NF and UF membrane systems based on customer requirements. Experience selling to OEMs, Distributors and End Users in Water, Wastewater, Food and Dairy markets.

**Applications Engineer – Membrane Filtration** (Candidate #7935) – BS ChemE with MBA. Strong Sales and Engineering background, developing custom applications for customers in markets that include Biopharm, Semiconductor, Food & Beverage, Power Gen, and Chemical Process. Exceptional background with membrane filtration.

**Senior Downstream Purification and Application Scientist –Chromatography and Analysis Expert** (Candidate #13760) – BSc and PhD. Strong Downstream Filtration and Purification background, developing unique purification solutions for customers in markets that include Biopharm, Diagnostics and Process Development. Exceptional background in Protein and Nucleic Acid analytical techniques.
